Olivet allows you to choose the Home Care Services that really suit you

We are a company you can trust - independent, professional, caring and understanding of your personal circumstances.

We are a company you can turn to if something unexpected happens and we can assist you to navigate the rules and red tape.

You can choose a flexible and personalised service that is just right for you and we will always act in your best interests.

We understand that your Health and Wellbeing is of utmost importance and that is why we have Registered Nurses as Case Managers.

Do you want to continue doing the things you love, keep connected with your family and friends and maintain your routine?

Olivet can help you to develop and budget a plan to best help you achieve this.

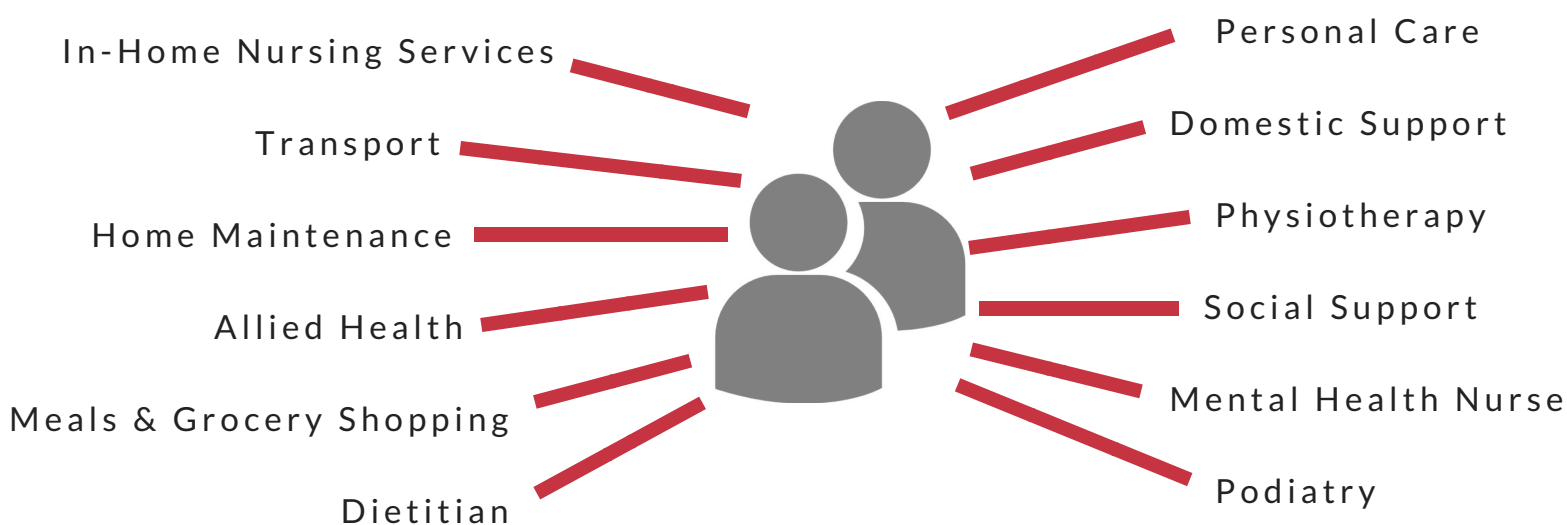

Your goals, your package, your choice

If you have a home care package, you needn't be forced to have what you don't want. Some care providers only offer the services which they themselves can deliver, like nursing or cleaning.

Olivet Community Care is different

Your home care package and the services you choose, will be exactly what you want. We can connect you with the services and professional carers to serve your individual needs and wants.

Whatever you need - transport to an appointment or to visit friends, making a meal, clearing your gutters or tending to garden, allied health support or the chance to connect with community groups sharing your interests - Olivet can facilitate it.

Flexibility and a Personalised Plan

Choosing a pre-packaged group of services from a brochure will never give you exactly what you want, which is why we tailor our services to suit and support you.

The three simple steps to find the right support for you are:

Independent Advice and Guidance

Our Case Managers are qualified, experienced Registered Nurses who are available to help you navigate your way through the home care options which will best support you. Experienced with both Home Care Packages and Independent services, they will meet with you to find out exactly what support you want.

Service Support

Once we have met with you to understand your wants and needs, your Case Manager will find the right carers and support staff to provide these services to you, in your home.

Service Delivery

We have access to a large community of trusted, experienced and qualified professionals, ready to provide the support you need in your home.

We will work right alongside you to ensure the support you want is delivered in a way that suits your circumstance and budget.

If your needs or budget change along the way, we will work with you again to adapt the level of support and service to ensure you continue receiving as much or as little as you want or need.

Government Assistance....are you missing something?

As Olivet Community Care is approved to provide government funded home care packages, we can quickly help you discover if you are eligible for any government support.
